812-854-3757

Original Tasking

- Develop over-arching strategy for acquiring and managing product data / information
- Develop “Rules of the Road” for the establishment, maintenance and governance of the IDE/IPDE
- Find Integrated Data Environment/Product Data Management (IDE/PDM) initiatives

Initial Events

- 20-21 June Off-site meeting
 - Vision & plan
 - Common concerns identified
 - Common definitions formed
 - Current IDE initiatives surveyed
- Teaming by OPNAV/SYSCOMs and EA-21
- August - IDE Concept of Ops draft
- September - Contracting language draft

Outcomes

- IDE Concept of Operations (CONOPS)
 - Executive level overview of the IDE in a life cycle support context
 - Establish common definitions, goals
- IDE Contracting Language
 - Template offering minimum levels of IDE capability for contracting officers
 - Incorporate Navy Digital Data Policy, CFTDH, IDE Handbook, & other helps into common specific specs to guide procurement
 - Specific deliverable NOT intended, but instead outlines required operational capabilities

4 Oct Working Session

- Participants from EA-21, SYSCOMS, Field Activities
- Detailed revision of documents
 - Include in minutes RIC mtg
- Schedule:
 - AM: Separate small focused groups
 - PM: General group review of both docs

Current Status

- Updated CONOPS and Contracting Language distributed to participants in final draft for comments on 25 Oct
- Plan is to incorporate comments to finalize documents and distribute to larger audience for review in November
- Participation in follow up needed
